**Recent research shows that sending
one fax manually takes an average of
10 minutes.**

[Click here to choose your Model of FaxAlon™ !!!](#)

In summary:

- Are you tired of printing a document, adding a cover sheet and then faxing it?
- Are you tired of hundreds of spam faxes arriving at your fax machine, using up paper and ink, just to throw them out?
- Would you like to have the flexibility of incoming faxes in a format which you can then email, print or fax out again?
- Would you like to be able to incorporate an incoming fax into a document?
- Want to secure your privileged incoming faxes from prying eyes?
- Do you wish to have a centralized location for all your fax

lines?

- Wish you could track down that fax which has been lost?
- Do you want to achieve all of the above on a limited budget?

Then FaxAlon™ is for you.

FaxAlon™ is a solution for more efficient use of your faxing functions. It will enable you to reduce fax paper and ink usage. You can fax directly from the desktop of each station without having to first print the document. All incoming faxes are received by a computer. They can be previewed and forwarded to email or a printer, saving you paper and ink for both incoming and outgoing faxes!

- FaxAlon™ puts the power back in your hands.
Use any application on your PC to send a fax just as easily as you would send it to a printer.
- Choose from a list of preset Fax Cover sheets or choose not to use one at all.
- Add comments to the chosen Fax Cover sheet on the fly.
- Receive an email confirmation that your fax has been sent successfully.
- Manage multiple fax lines with a single FaxAlon™ server
- Forward incoming to an email or a printer
- Store incoming faxes on the FaxAlon™ server
- Route incoming faxes to different destinations based on the telephone line it came in on.
- Preview incoming faxes before deciding on their destination

FaxAlon™ is a Linux based solution so you do not pay for the Operating System or the fax software, just for computer, installation and configuration.

Choose the FaxAlon™ model that best suits your needs:

- **Standard Model:** Handles small businesses, and small workgroups.
- **Business Model:** Handles small and medium-sized businesses, and small enterprise workgroups.
- **Corporate Model:** Handles large businesses and enterprises workgroups, which require maximum performance and reliability.
- **Enterprise Model:** Handles large businesses and enterprises, which require maximum performance and reliability.

Options: Extra serial ports and Faxmodems will be required if you wish FaxAlon™ to service more than one fax line

To purchase and view specification of the different models, go to FaxAlon™ Sales

For further information, please contact us at 314-428-2208 or send an email to sales@alonsystems.com

If you WANT TO KNOW how some people feel about standard Fax Machines, then click on this link OR click on this link.

If you are still not convinced then read the FAQ's page.
